

MIDVERG20[®] INTERLOCKING DRY VERGE SYSTEM 15 YEAR GUARANTEE

The MidVerg20[®] System has been manufactured to prevent weather ingress and reliance on mortar at the roof edge. Compatible with all flat intermediate gauge single-lap interlocking tile types and suitable for use on new build or refurbishment.

FEATURES AND BENEFITS

- Suits all single lap interlocking plain tiles between 200mm and 260mm batten gauges
- Designed to minimise water run-off staining on the verge and gable wall
- Clip-over design for fast installation
- Dry fix products eliminate the mortar installation and maintenance issues
- Secure single nail fixing when used with optional batten end clip. No special fixings required
- Universal eaves starter unit for all applications and one discreet colour
- Starter unit designed to avoid gutter interference and slotted for ease of adjustment
- Starter unit and ridge cap kits include stainless steel screws and wall plugs
- Universal angle and half-round ridge end cap options
- High heat distortion resistance compared to PVC
- UV stabilised for long term performance

PRODUCT OPTIONS

♻️ Slate grey dry verges and ridge caps contains up to 100% recycled PPC

PRODUCT CODES AND COLOURS

HD MV20	Verge unit (left or right hand)	Black, Slate Grey, Dark Brown, Antique Red, Terracotta
